

Welcome to university life

Today we have very unstable situation with people applying to universities due to the old fashioned systems. The main purpose of our project is to make it easier for the applicant to find the right institution, faculty and direction where he wants to go. In the project, the user can store faculties in their personal cabinet, view their photos and detailed information about the faculty, can search the site, select cities, etc.

Roles: Guest, User, University Admin, Site Admin

Role	Description
Guest	User who is not registered. Can view user and university ratings.
User	Can add personal info, modify it; browse universities, colleges, etc., and save them to your favorites.
University Admin	Can view user information, delete their accounts if they have not visited web site for more than half a year, edit university information and add new information.
Site Admin	Can add or delete the University Admins, add or delete new universities.
